

# Teradata Training

---

**Leading Edge** has responded to customer demand for an **independent Teradata\* training offer in the UK and European marketplace**. In order to meet this demand we have developed our own **Teradata** training courseware. Our **Teradata** courseware is comprehensive enough to cover all of your **Teradata** training requirements, but is also flexible so it can be tailored to meet your specific needs. Why settle for less?

## Our approach to Teradata training is unique within Europe:

- All of our trainers are NCR certified
- Classes can be held at client premises or at our own premises
- All materials can be tailored to suit your individual requirements
- All courses are as 'hands on' as possible
- We enjoy excellent scores in post-course student assessments
- Large student numbers can be accommodated
- Students enjoy themselves!

No matter what your **Teradata** training requirement, we can help. We have trained hundreds of **Teradata** users, both technical and non-technical, at some of the very largest **Teradata** sites. As the feedback from previous delegates can testify, our **Teradata** training capability is first class. Once you've experienced our **Teradata** training, we're sure your company will come back for more – all of our other clients have.

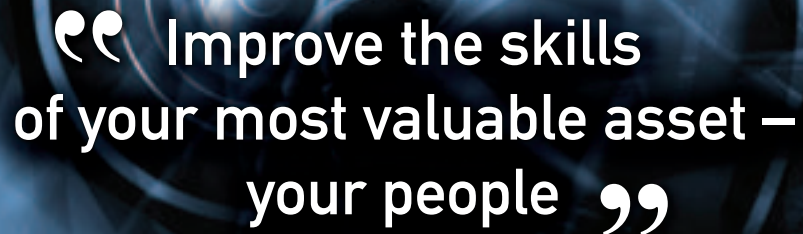

## Our current Teradata courses include:

- **Teradata** V2R5 features
- **Teradata** Basics
- **Teradata** SQL
- **Teradata** Advanced SQL
- **Teradata** Application Utilities
- **Teradata** Administration
- **Teradata** Physical Implementation/Database Design
- **Teradata** 'Boot Camp' – Basics, SQL and Utilities overview
- **Teradata** Application Development
- **Teradata** Performance and Tuning
- **Teradata** Best Practice

We also offer **Unix Introduction** and **Oracle to Teradata Conversion** Teradata related courses. We can also design a **customised training** solution to fit your specific requirements.
